Securexchange

Safeguard property funds from hackers

Securexchange ensures your funds are protected allowing you to share account details, obtain account details, access sensitive documents and electronically sign documents safely and simply.

How does it work?

Step 1

We send you an email invitation to join the transaction

Step 2

Enter the transaction by entering the SMS code sent to your mobile

Step 3

View our trust details, provide your bank details, access or sign documents

Step 4

Upload documents receipts and ensure your funds are protected
